SULIS
LASER CLINIC

WHY CHOOSE SULIS LASER CLINIC?

At Sulis Laser Clinic, we're proud to offer advanced, results-driven treatments using state-of-the-art technology from the UK's leading manufacturer, Lynton Lasers. Our medically CE-marked LUMINA system — trusted by NHS professionals — is designed to treat a wide range of skin concerns safely and effectively.

Our team is highly trained in the principles of laser and IPL, with comprehensive knowledge to ensure every treatment is carried out with precision and care. Your safety and satisfaction are always our top priorities, and we're committed to delivering clinically proven results tailored to your unique skin needs.

LYNTON IPL PERMANENT HAIR REMOVAL

LASER HAIR REMOVAL

At Sulis Laser Clinic we use the Lynton Lumina 650 Advanced with Nd:YAG technology — trusted by the NHS and designed for safe, effective hair removal on all skin types. This medical-grade system delivers long-lasting results with minimal discomfort.

Face

Full Face £60

Half Face £45

Neck £35

Chin £30

Upper Lip £25

Chin & Lip £35

Side Face, Forehead, Nose, Ears: from £25

Body

Underarms £45 | Half Arms £70

Full Legs £145 | Half Legs £95

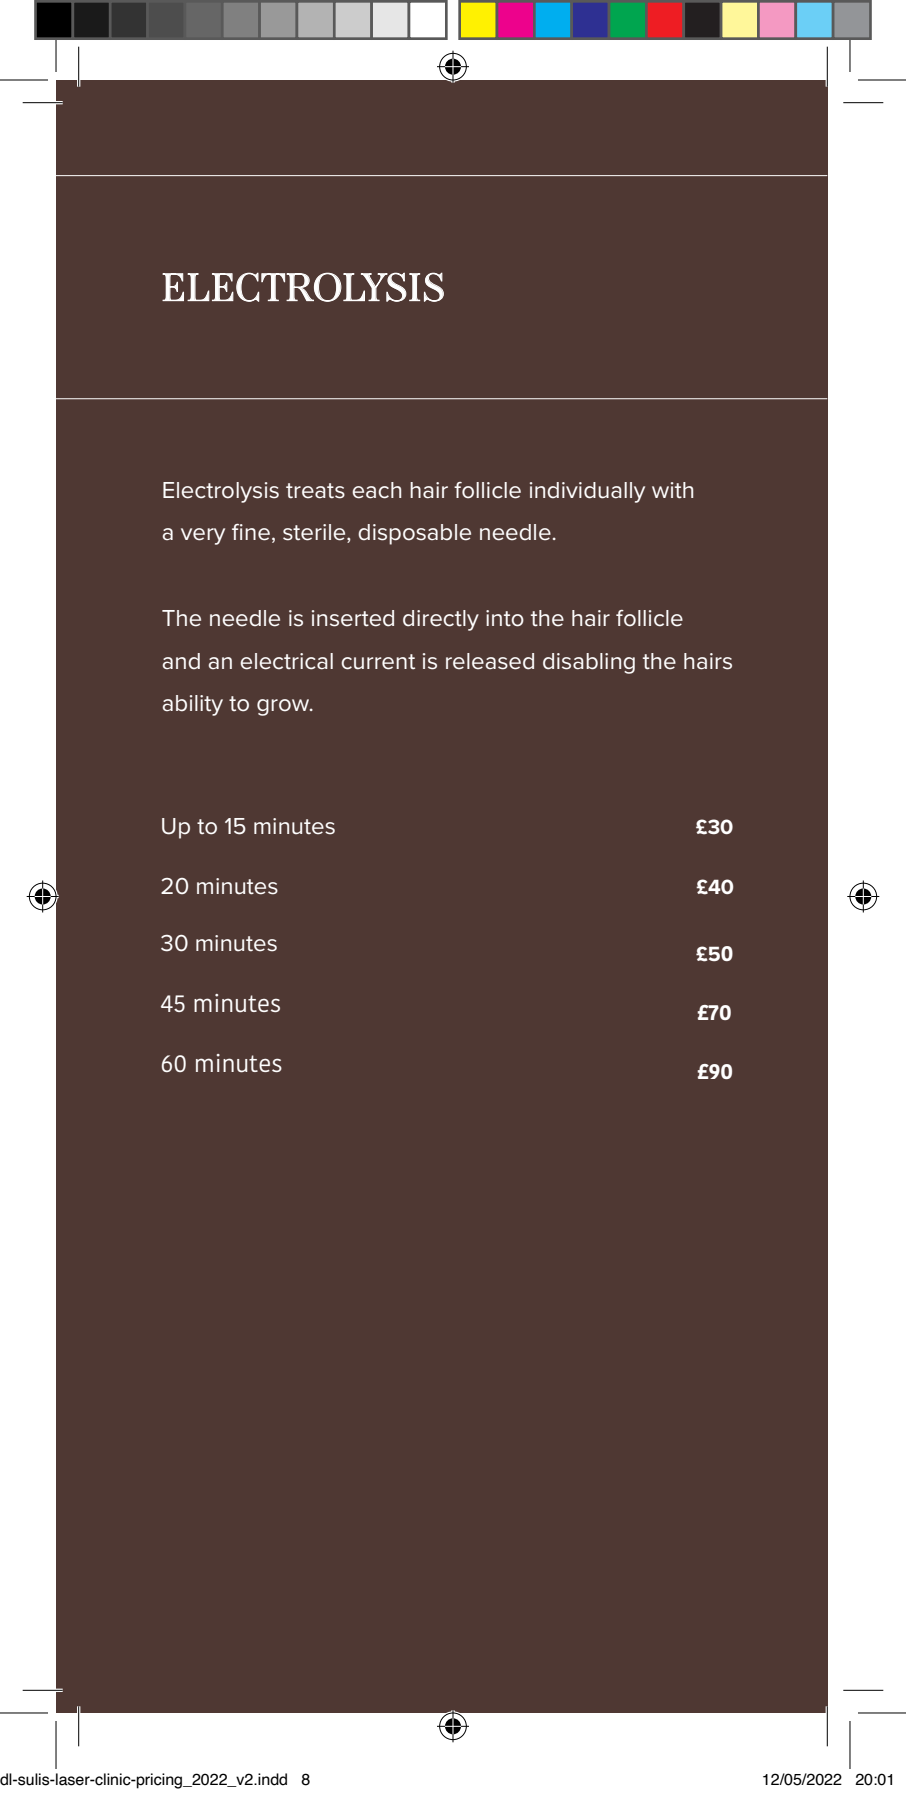

Full Back £145 | Lower Back £70

Chest / Abdomen: £55

Hollywood (F) £60 | (M) £85

Bikini Line £45 | Buttocks £50

Nipples, Navel, Feet & Toes: from £25

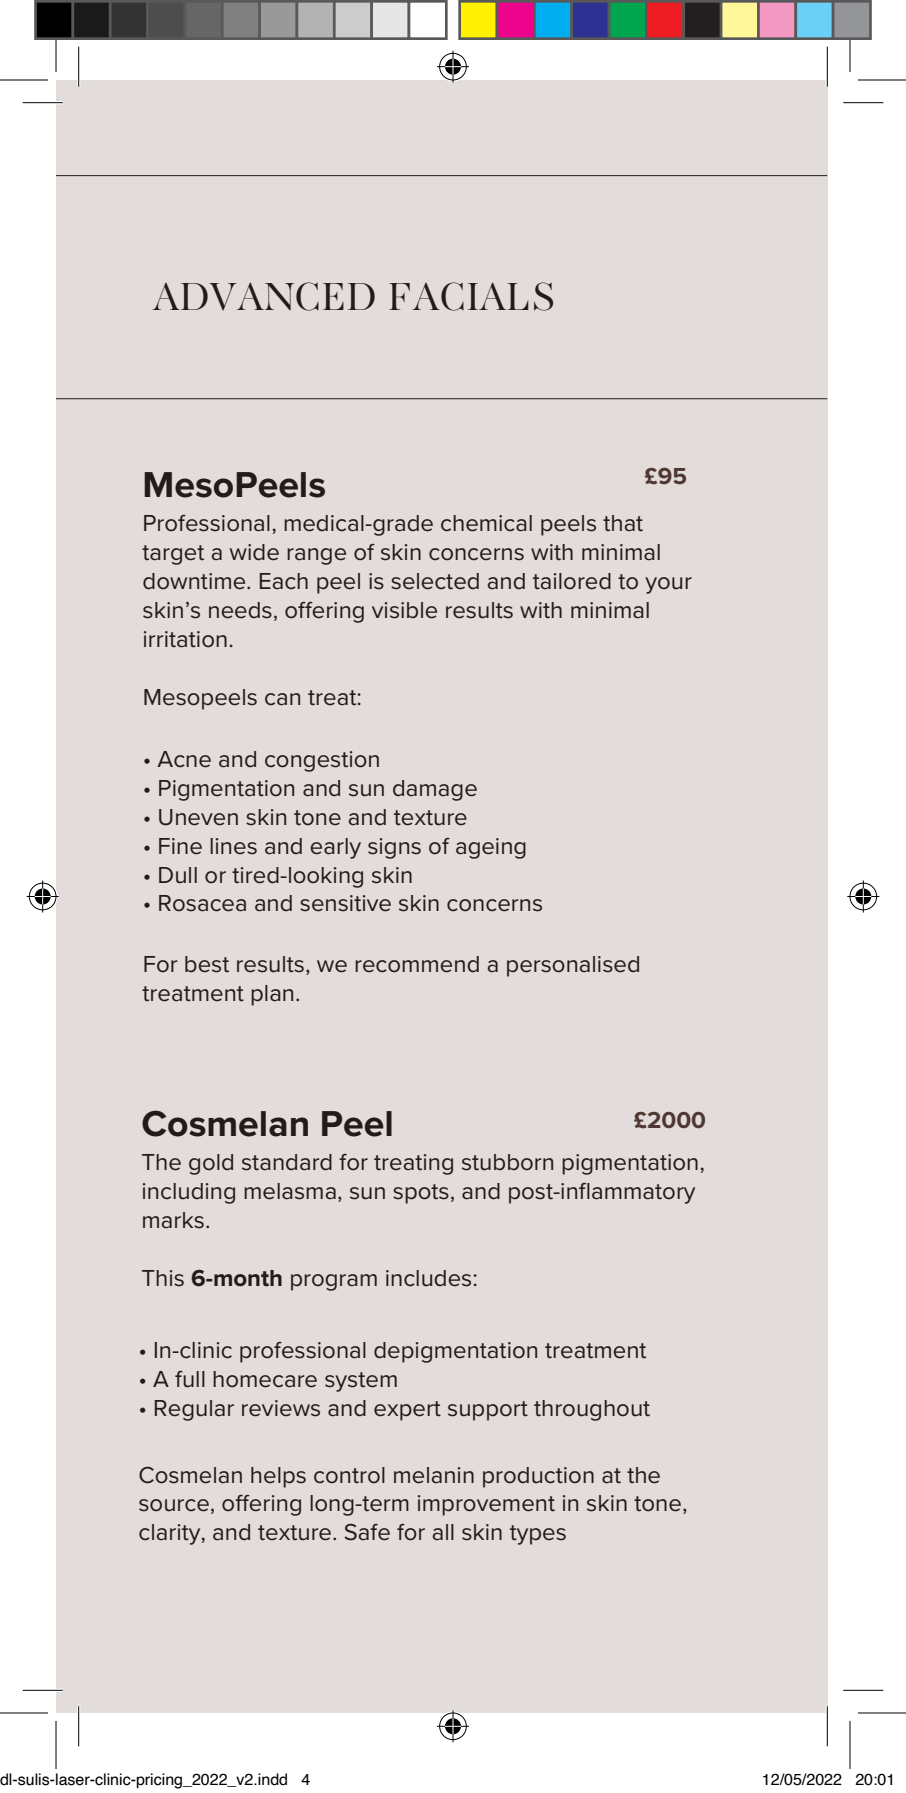

ELECTROLYSIS

Electrolysis treats each hair follicle individually with a very fine, sterile, disposable needle.

The needle is inserted directly into the hair follicle and an electrical current is released disabling the hairs ability to grow.

Up to 15 minutes	£30
20 minutes	£40
30 minutes	£50
45 minutes	£70
60 minutes	£90

ADVANCED FACIALS

MesoPeels

£95

Professional, medical-grade chemical peels that target a wide range of skin concerns with minimal downtime. Each peel is selected and tailored to your skin's needs, offering visible results with minimal irritation.

Mesopeels can treat:

- Acne and congestion
- Pigmentation and sun damage
- Uneven skin tone and texture
- Fine lines and early signs of ageing
- Dull or tired-looking skin
- Rosacea and sensitive skin concerns

For best results, we recommend a personalised treatment plan.

Cosmelan Peel

£2000

The gold standard for treating stubborn pigmentation, including melasma, sun spots, and post-inflammatory marks.

This **6-month** program includes:

- In-clinic professional depigmentation treatment
- A full homecare system
- Regular reviews and expert support throughout

Cosmelan helps control melanin production at the source, offering long-term improvement in skin tone, clarity, and texture. Safe for all skin types

ADVANCED FACIALS

Dermaplaning

£60

Dermaplaning is a simple and safe procedure for exfoliating the skin and ridding the skin of fine vellus hair (peach fuzz) using a medical grade scalpel. This treatment allows skin products to penetrate more deeply and makeup to glide on evenly, giving a radiant smooth appearance.

Carbon Peel Laser Facial

£80

A deep-cleansing treatment ideal for oily, congested, and acne-prone skin. This facial targets blackheads, excess oil, and enlarged pores, leaving your skin clearer and more balanced. A carbon lotion is applied to draw out impurities, then activated with laser energy to exfoliate, unclog pores, and reduce sebum production. Skin is left feeling smoother, fresher, and visibly refined — all with zero downtime.

ILLUMI Facial

£130

A next-generation skin rejuvenation treatment combining medical-grade Lynton Lumina IPL, a gentle chemical peel, and specialist Lynton skincare products for exceptional results.

This advanced facial targets pigmentation, sun damage, redness, and uneven skin tone—leaving your complexion visibly brighter, clearer, and more refined.

- Combines light-based technology with a mild chemical peel
- Reduces redness, pigmentation, and signs of ageing
- Uses professional skincare to calm, hydrate, and protect.
- Minimal downtime

ADVANCED MICRONEEDLING

Xprof DNA 3% Polynucleotide

A regenerative mesotherapy treatment containing 3% polynucleotides to stimulate cell repair, improve skin elasticity, and enhance hydration. Ideal for tired, aging, or damaged skin, it helps smooth fine lines and restore a fresher, more youthful appearance.

£295

Hair Regrowth Mesotherapy

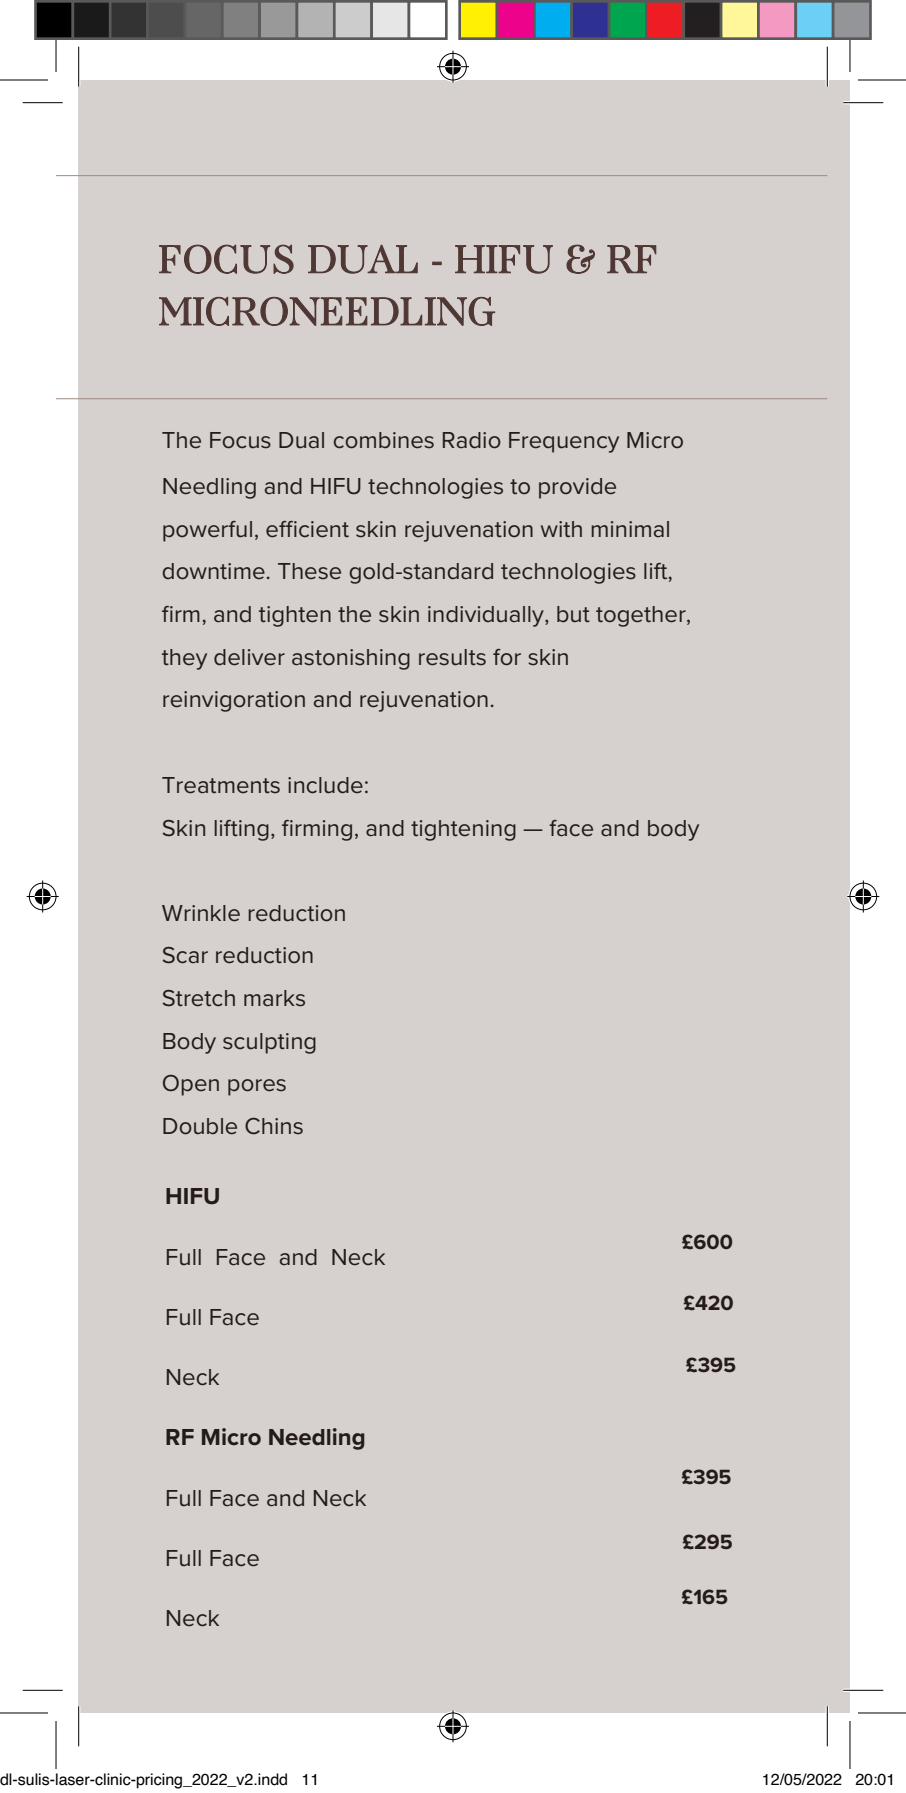

A complete, results-driven programme for thinning or shedding hair. Combines 5 in-clinic mesotherapy sessions using **C.prof 230** with microneedling to stimulate hair growth and strengthen follicles.

Includes:

- 5 x Mesotherapy treatments with microneedling
- Premium scalp and hair support kit – worth £167 (shampoo, capsules & vitamins)

£650

FOCUS DUAL - HIFU & RF MICRONEEDLING

The Focus Dual combines Radio Frequency Micro Needling and HIFU technologies to provide powerful, efficient skin rejuvenation with minimal downtime. These gold-standard technologies lift, firm, and tighten the skin individually, but together, they deliver astonishing results for skin reinvigoration and rejuvenation.

Treatments include:
Skin lifting, firming, and tightening — face and body

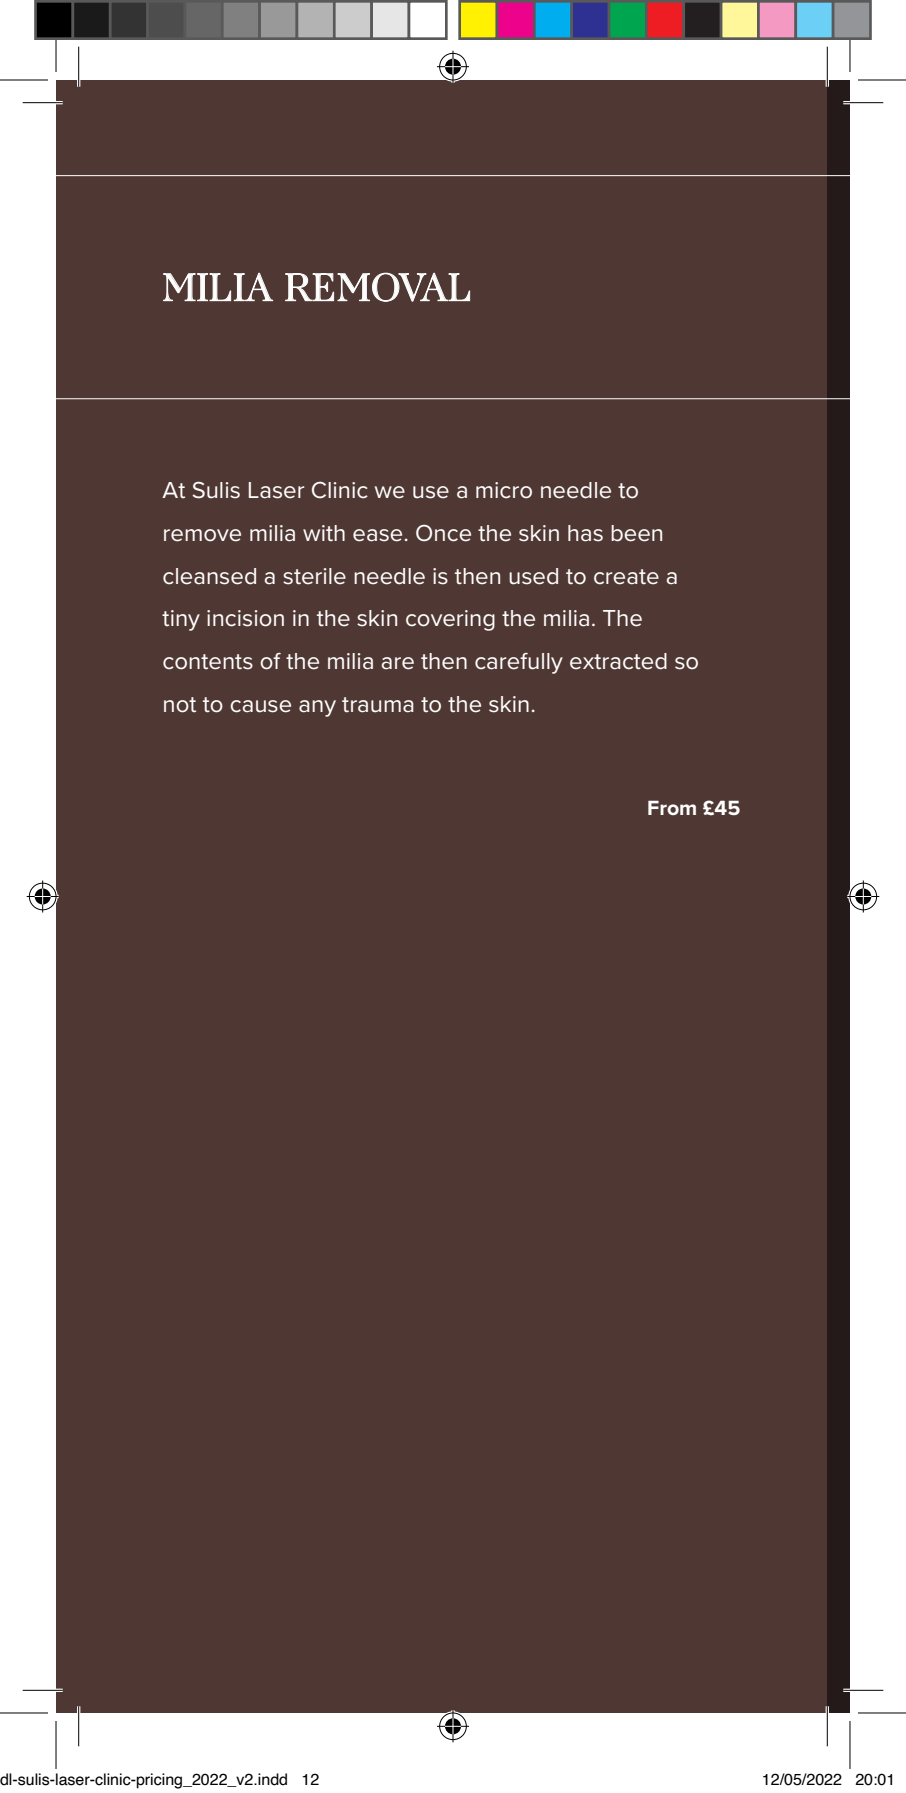

- Wrinkle reduction
- Scar reduction
- Stretch marks
- Body sculpting
- Open pores
- Double Chins

HIFU

Full Face and Neck	£600
Full Face	£420
Neck	£395

RF Micro Needling

Full Face and Neck	£395
Full Face	£295
Neck	£165

MILIA REMOVAL

At Sulis Laser Clinic we use a micro needle to remove milia with ease. Once the skin has been cleansed a sterile needle is then used to create a tiny incision in the skin covering the milia. The contents of the milia are then carefully extracted so not to cause any trauma to the skin.

From £45

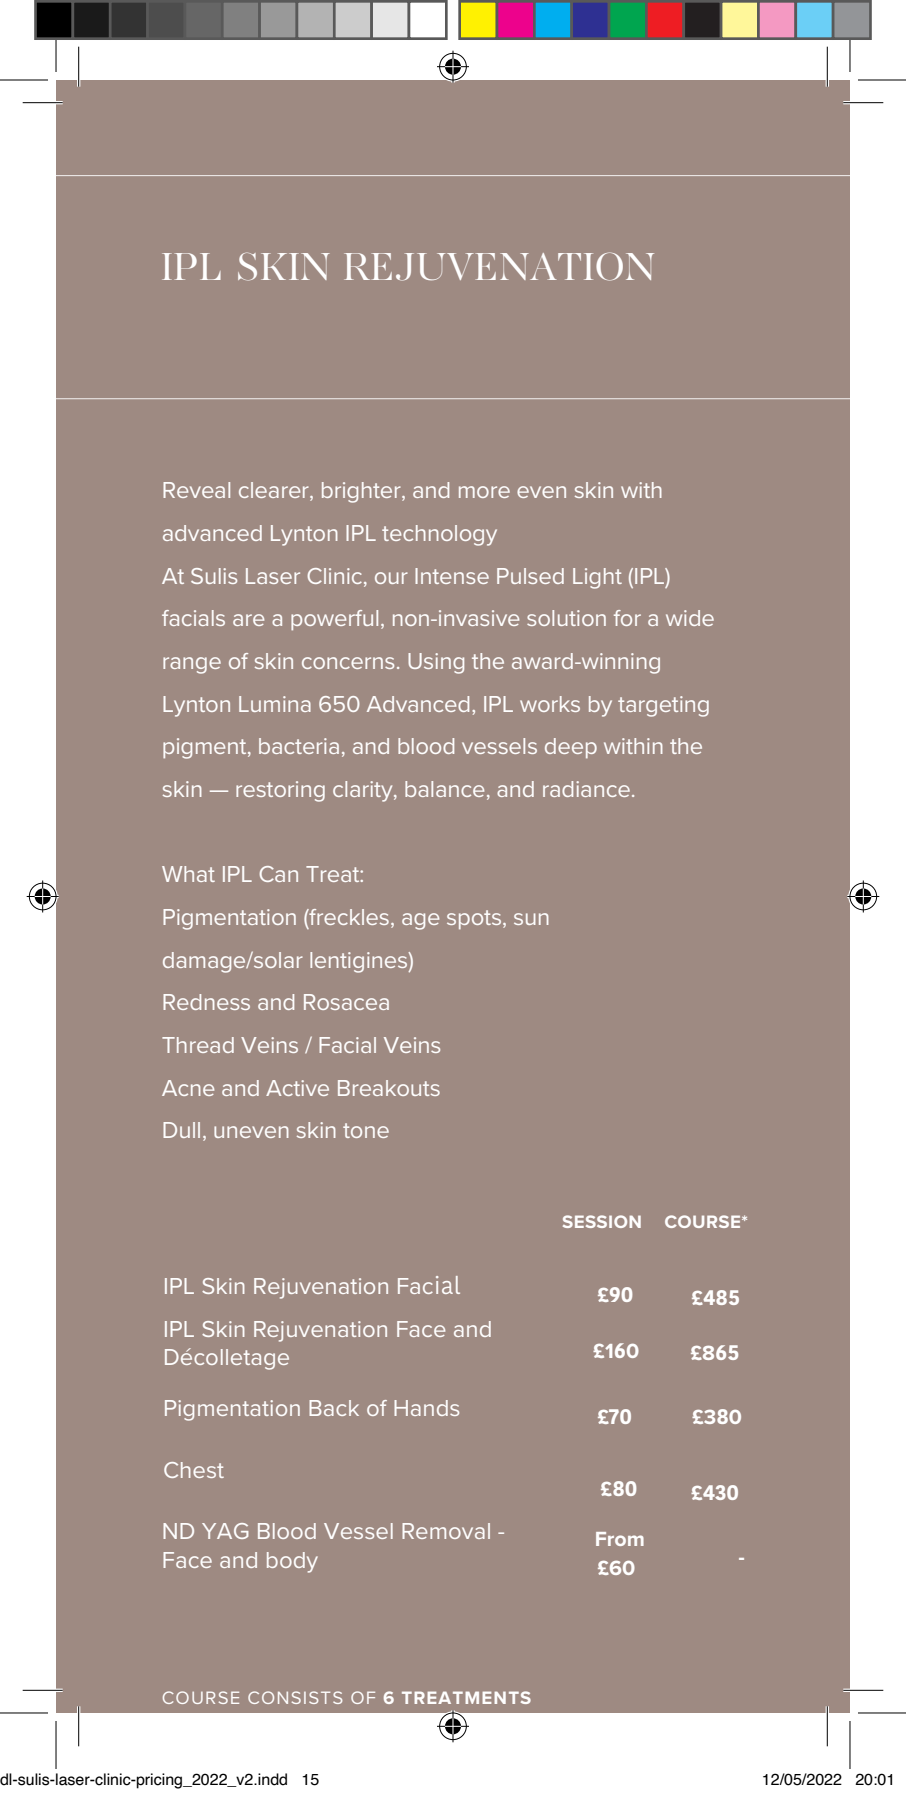

TATTOO REMOVAL

Our Lynton Q-switched Nd:YAG is one of the best medical grade lasers available in the UK giving you the optimum results.

The easiest colours to remove are black and red with the remaining colours being slightly more difficult (however we can remove/fade them). Unfortunately we cannot remove green pigment.

On average it can take between 3 – 12 treatments, however this time can vary depending on the different inks, tattoo application and the age of the tattoo etc. Some amateur tattoos have been removed in as little as 2 treatments. The tattoo needs to be treated every 4 – 8 weeks, allowing the ink to break down and giving the skin time to heal.

From £35

IPL SKIN REJUVENATION

Reveal clearer, brighter, and more even skin with advanced Lynton IPL technology

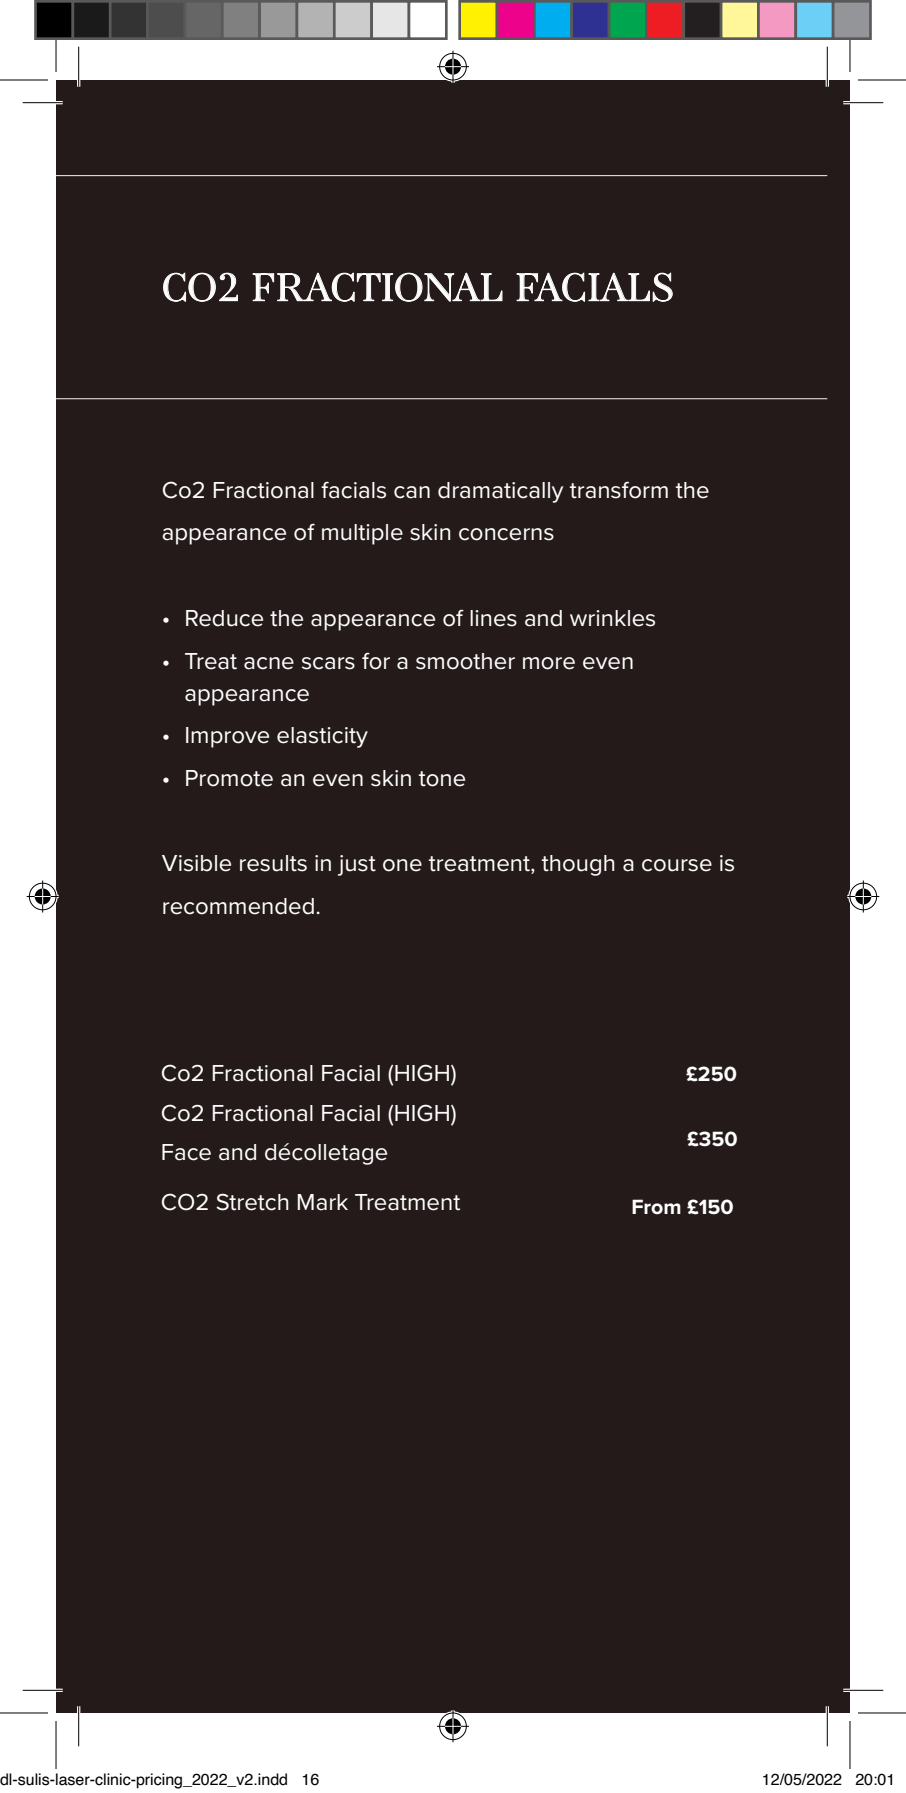

At Sulis Laser Clinic, our Intense Pulsed Light (IPL) facials are a powerful, non-invasive solution for a wide range of skin concerns. Using the award-winning Lynton Lumina 650 Advanced, IPL works by targeting pigment, bacteria, and blood vessels deep within the skin — restoring clarity, balance, and radiance.

What IPL Can Treat:

- Pigmentation (freckles, age spots, sun damage/solar lentigines)
- Redness and Rosacea
- Thread Veins / Facial Veins
- Acne and Active Breakouts
- Dull, uneven skin tone

	SESSION	COURSE*
IPL Skin Rejuvenation Facial	£90	£485
IPL Skin Rejuvenation Face and Décolletage	£160	£865
Pigmentation Back of Hands	£70	£380
Chest	£80	£430
ND YAG Blood Vessel Removal - Face and body	From £60	-

COURSE CONSISTS OF 6 TREATMENTS

CO2 FRACTIONAL FACIALS

Co2 Fractional facials can dramatically transform the appearance of multiple skin concerns

- Reduce the appearance of lines and wrinkles
- Treat acne scars for a smoother more even appearance
- Improve elasticity
- Promote an even skin tone

Visible results in just one treatment, though a course is recommended.

Co2 Fractional Facial (HIGH)	£250
Co2 Fractional Facial (HIGH)	£350
Face and décolletage	
CO2 Stretch Mark Treatment	From £150

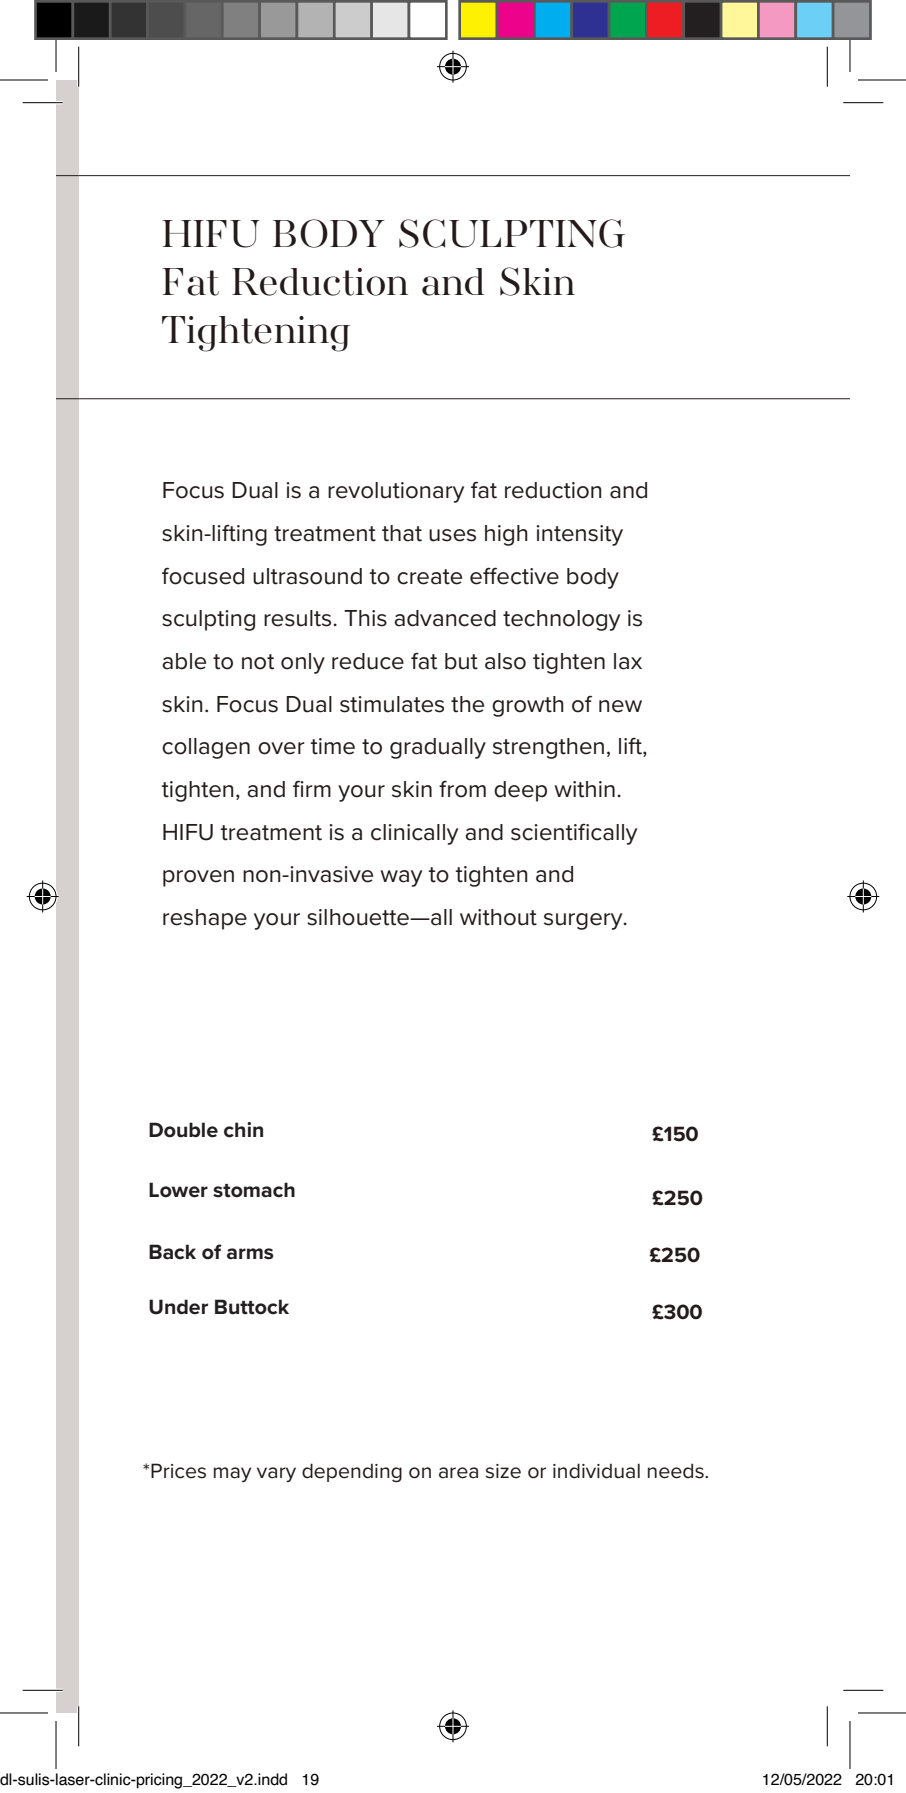

CO2 FRACTIONAL LESION REMOVAL

CO2 Fractional Laser is a precise, minimally invasive treatment commonly used to remove moles, skin tags, and warts. These skin lesions are often removed for cosmetic reasons or because they cause discomfort—such as catching on clothing or becoming irritated. The procedure uses focused beams of light to accurately target and vaporise unwanted tissue, offering highly effective results with minimal risk of scarring. It promotes smoother, clearer skin with a relatively quick recovery time.

Important: All moles must be assessed and approved for removal by a GP before treatment can be carried out.

Co2 Lesion Removal

Skin Tag	From £45
Mole Reduction	From £95
Verruca/Wart	From £45
Seborrhoeic keratosis	From £50
Fungal Nail	From £45
Xanthelasma	*One eye; £130 •Two eyes; £250

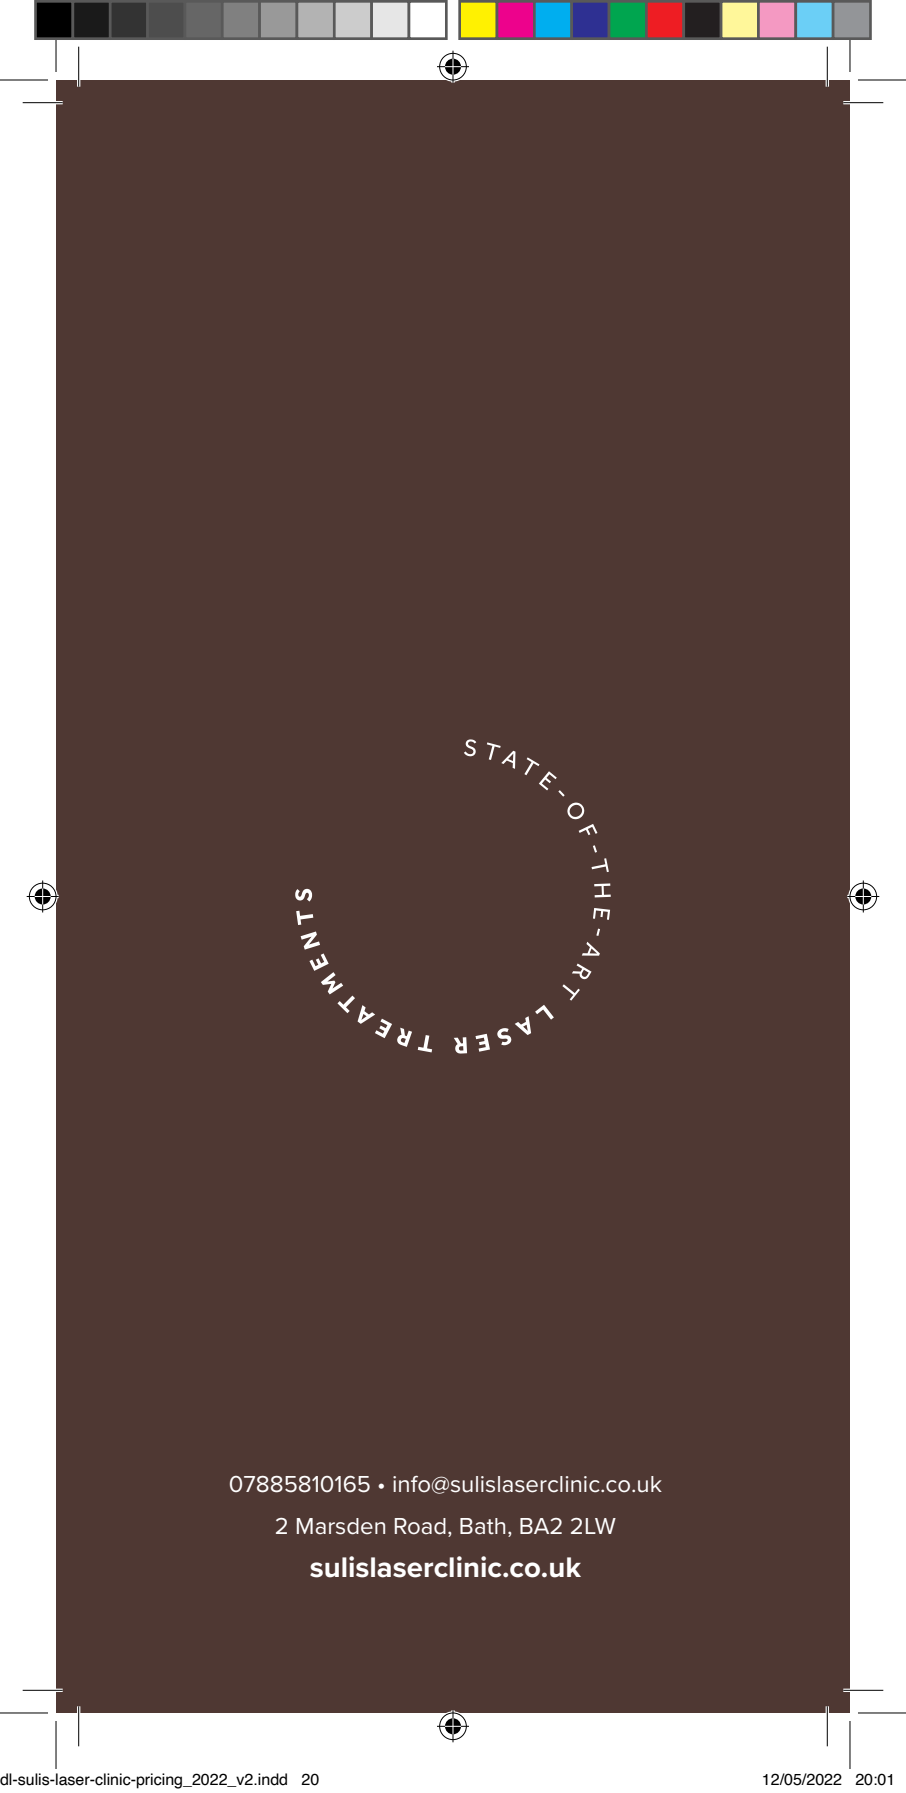

HIFU BODY SCULPTING

Fat Reduction and Skin Tightening

Focus Dual is a revolutionary fat reduction and skin-lifting treatment that uses high intensity focused ultrasound to create effective body sculpting results. This advanced technology is able to not only reduce fat but also tighten lax skin. Focus Dual stimulates the growth of new collagen over time to gradually strengthen, lift, tighten, and firm your skin from deep within. HIFU treatment is a clinically and scientifically proven non-invasive way to tighten and reshape your silhouette—all without surgery.

Double chin	£150
Lower stomach	£250
Back of arms	£250
Under Buttock	£300

*Prices may vary depending on area size or individual needs.
